Choice Poetry.

NOT ALL ALONE.

BY ALARIC A. WATTS.

Not all alone; for thou canst hold
Communion sweet with saint and sage;
And gather gems, of price untold,
From many a consecrated page:
Youth's dreams, the golden lights of age,
The poet's lore, are still thine own;
Then, while such themes thy thoughts engage,
Oh, how canst thou be all alone?

Not all alone; the lark's rich note
As mounting up to heaven she sings;
The thousand silvery notes that float
Above, below, on morning's wings:
The softer murmurs twilight brings—
The cricket's chirp, cicada's glee:
All earth, that lyre of myriad strings,
Is jubilant with life for thee!

Not all alone; the whispering trees,
The rippling brook, the starry sky,
Have each peculiar harmonies
To soothe, subdue, and sanctify:
The low, sweet breath of evening's sigh,
For thee hath oft a friendly tone,
To lift thy grateful thoughts on high,
And say—thou art not all alone!

Not all alone: a watchful Eye,
That notes the wandering sparrow's fall,
A saving Hand is ever nigh,
A gracious Power attends thy call—
When sadness holds the heart in thrall,
Oft is His tenderest mercy shown:
Seek, then, the balm vouchsafed to all,
And thou canst never be alone!

Miscellaneous.

Water Drinking.

Professor Silliman closed a recent Smithsonian lecture by giving the following sensible advice to young men:

If, therefore, you wish for a clear mind, strong muscles, and quiet nerves, and long life and power prolonged into old age, permit me to say, although I am not giving a temperance lecture, avoid all drinks but water, and mild infusions of that fluid; shun tobacco and opium, and every thing else that disturbs the normal state of the system; rely upon nutritious food and mild dilutent drinks of which water is the basis, and you will need nothing beyond these things except rest, and due moral regulations of all your powers, to give you long, happy and useful lives, and a serene evening at the close.

How to Go to Bed.

Hall's Journal of Health, in speaking on this subject, says: 'In freezing winter time do it in a hurry, if there is no fire in the room, and there ought not to be unless you are quite an invalid. But if a person in good health, it is best to undress by a good fire, warm and dry the feet well, draw on the stockings again, run into a room without a fire, jump into bed, bundle up, with head and ears under cover for a minute or more, until you feel a little warmth; then uncover your head, next draw off your stockings, straighten out, turn over on your right side, and go to sleep. If a sense of chilliness comes over you on getting into bed, it will always do you an injury; and its repetition increases the ill-effects without having any tendency to 'harden' you. Nature ever abhors violence. We are never shocked into good health. Hard usage makes no garment last longer.'

Sleeping After Dinner.

This habit, which is becoming so very popular in this country, and particularly so with young persons, is an exceedingly pernicious one. In our climate, the stomach does not perform its functions during sleep, except with slowness and difficulty; so if it be heavily loaded, it remains in a semi-torpid condition, until the siesta is finished. The result of such daily torpidity is indigestion, or some one of the thousand different forms assumed by the hydra, dyspepsia. In hot countries the action of the digestive organs is much easier than here, and sleep, unless very sound, impedes the stomach's functions but very slightly, if at all. The siesta is, therefore, a natural and proper thing for the tropics, although totally inappropriate to the United States.

Give no Pain.—Breathe not a sentiment, say not a word, give not an expression of the countenance that will offend another, or send a thrill of pain to his bosom. We are surrounded by sensitive hearts, which a word, a look even, might fill to the brim with sorrow. If you are careless of the opinions of others, remember that they are differently constituted from yourself, and never, by word or sign, cast a shadow on a happy heart, or throw aside the smiles of joy that linger on a pleasant countenance.

Interesting Electrical Experiment.—Take a sheet of coarse brown paper, and after holding it before the fire until it is perfectly dry, fold it up into a long strip of about two inches wide. The magnet is now complete. To exhibit its attractive power, cut some strips of writing-paper about three inches long and about as wide as one of these lines; place them upon the table, three or four together. Now, take the magnet and draw it briskly under the arm two or three times; its electro-magnetism is instantly developed, and becomes apparent when held over the small strips of writing-paper, for they fly up toward the paper magnet, veritably, 'by the wings of lightning.'

Modern Improvements.—Two centuries ago not one person in 100 wore stockings. Fifty years ago not one boy in 1,000 was allowed to run at large at nights. Fifty years ago not one girl in 1,000 made a waiting woman of her mother.

Model Speech in the Missouri Legislature.

We find the following in the report of the proceedings of the Missouri legislature on Friday, the 7th ult. Mr. Pitt offered the following:

Resolved, That the Speaker be authorized to cause to be printed and posted, one hundred bills, announcing the 8th of January, 1859

Mr. Abney—I move to lay that resolution on the table.

Mr. Pitt—Mr. Speaker, this House passed resolutions, sir, to celebrate, in an appropriate manner, the 8th of January.—This is a resolution simply asking that notice be given to the public of that day.—We have declared an intention, and now, when we come to publish it, some gentleman is suddenly seized with the "retrenchment gripes," and squirms around like a long red worm on a pin hook. [Laughter.) Gentlemen keep continually talking about economy. I myself, do not believe in tying the public purse with cob web strings, but when retrenchment comes in contact with patriotism, it assumes the form of "smallness" Such economy is like that of Old Skinflint, who had a pair of boots made for his little boy, without soles, that they might last longer. [Laughter] I reverence "the day we celebrate." It is fraught with reminiscences the most stirring; it brings to mind one of the grandest events ever recorded in letters of living fire upon the walls of the temple of fame by the strong right arm of the god of war! On such occasions we should rise above party lines and political distinctions. I never fought under the banner of Old Hickory, but 'by the eternal' I wish I had. [Laughter and applause.] If the old war horse was here now, he would not know his own children from the side of Joseph's coat of many colors—Whigs, Know Nothings, Democrats, hard, soft, boiled, scrambled and fried.—Lincolnites, Douglasites and blatherskites! I belong to no party; I am free, unbridled, unsaddled, in the political pasture. Like a bob tailed bull in fly time, I charge around in the high grass and fight my own flies. [Great laughter.] Gentlemen let us show our liberality on patriotic occasions. Why, some men have no more patriotism than that you could stuff in the eye of a knitting needle. Let us not squeeze five cents till the eagle on it squeals like a locomotive or an old maid. Let us print the bills and inform the country that we are as full of patriotism as are Illinois swamps of tadpoles. [Laughter] I don't believe in doing things by halves. Permit me, Mr. Speaker, to make a political quotation from one of our noblest authors—

"I love to see the grass among the red May roses,
I love to see an old gray horse, for when he goes he *goeses*."

[Convulsive laughter.]

After the above speech, the House refused to lay the resolution on the table.

Scientific Discussion.

A most animated dispute occurred on Cross street, a few days ago between Cato Brown and Jim Trotten, two factory hands, employed in one of the tobacco factories, well known for their extensive information on all scientific subjects. The question under discussion was the shape of the earth. Cato contended that it was flat and stood on a big rock, a theory which, when advanced, drew forth the following dialogue:

Jim—You argers dat de world is flat and stands on big rock—now I want you to tole me what dat rock stand on?

Cato—Nigger, I'se s'prised at your ignorance! Why, it stands on anurrer big rock.

Jim—(Confident that he had his opponent cornered)—But what does bofe ob dem rocks stand on?

Cato—(After a moment's hesitation)—Why dar is rocks all de way down.

Jim—(With a pompous air). My colored friend, I'se sorry to see sich 'splays ob remirigated obscurity in a gemman ob your egsalted pertentions; allow me who has experienced superior opportunities, to correct de wery doroneous repression you has, and inform you dat dis earf is round and devolves on axles.

Cato—I knows how to depreciate de feelin dat prompts you to distend to dis nigger de information dat you furnish on de question dat we is at present debatin', and wid all reference to s'perior opportunities to which you take occasion to prelude, I must disagree wid you on de freory dat you advances. Kase if de world was round and turned on axles, wouldn't de axle tree broke down and spill all de people in the street? Answer me dat.

It is unnecessary to add that Jim was utterly confounded by this overwhelming argument, and forced to 'knock under' to the superior intellectual attainments of his opponent.

Large Snake.

An Indian came to a certain 'agency,' in the northern part of Iowa, to procure some whisky for a young warrior that had been bit with a rattlesnake. At first the agent did not credit the story, but by the earnestness of the Indian and the urgency of the case, overcame his scruples, and turning to get the liquor he asked the Indian how much he wanted.

'Four quarts,' answered the Indian.

'Four quarts,' asked the agent in surprise; 'so much as that?'

'Yes,' replied the Indian, speaking through his set teeth, and frowning as savagely as though about to wage war against the snake tribe, 'four quarts—*snake very big.*'

Receipt for Chinese Bravery.

A letter from an officer serving in the Chinese expedition, gives the following laughable order for the day, published by one of the Chinese commanders, directing his soldiers what to do, in order to overcome their enemies. It is drawn up in form of a training bill of fare for thirteen days: 'This is commanded by me, the chief of the Braves. Let all tremble and obey. On the thirteenth day before the battle, they must eat jelly made from tiger's flesh, in order to imbibe the rage and ferocity of that animal; twelfth day before, the roasted liver of a lion, in order to have the intrepidity of that noble beast; 11th, stewed serpents, to acquire cunning; 10th, extract of chameleon, to deceive their enemies by changing color; 9th crocodile broth, to make them amphibious, and to pursue and fight their enemies both on land and on water; eighth, jaguar's liver, cooked in wine, in order to have the rapidity and fury of that quadruped; seventh, hawks' head, in order to have the quick eye of that bird in distinguishing the enemy; sixth, zebra's intestines, to be able to imitate the cry of that animal; fifth, hippopotamus' brains, to make the body impenetrable to bolts; fourth, stewed monkeys, to acquire the activity of that race; third, scorpions, in order that all the wounds inflicted by them may be as venomous as the sting of those reptiles. On the day before, the half-raw breast of a panther, in order to be as pitiless as that animal, and on the morning of the battle, they must drink a drop of leopard's blood, in order that they may imitate that animal, which never turns round while devouring its prey. Tremble and obey!'

A Little Election Incident.—Passing along Royal about 3 P. M, Monday, we overheard two sons of Erin:

"An, hav ye voted to-day, Pathrick?"

"Au' is it fore the biggest fool ye iver seen ye takes me to be, Mikel O'Rarety? It's yerself I am after belaving had no better sense nor to vote airly in the day when votes were only goin' for five dollars apiece?"

"It's thrue, Pathrick, as I hope the holy father'il forgive me. Me conscience is been a gnawin' at me the whole blissed day for thinkin' no more o' me liberty of voten' in this blissed free counthry, nor to sell it for five dollars."

"Och! out upon yes, ye foolish crather! if ye'd a' waited till fifteen minutes afore election closed, yer could a got fifty—or a hundred just as aisy. It's meself, Mikel O'Rarety knows what me glorious privilege is worth betther nor that. Git out o' me sight ye divil av a stupid fellow! niver to know any betther, the price o' liberty!" *Mobile Advertiser.*

"The Wrong Pew."—A correspondent of the Addison (N. Y.) *Advertiser*, writing from Woodhull, gives the following incident as of recent occurrence to the Woodhull Brass Band:—"They were invited to Jasper to attend a lecture, and enliven it with their music. The lecture was to be at the meeting house, and at the appointed time the band marched up and proceeded to the gallery. Finding a few gentlemen and ladies occupying the seats below, they immediately struck up Yankee Doodle, a very excellent tune and excellently played, but singularly inappropriate to the occasion. They had broken in suddenly on the solemnities of a prayer meeting! The few persons below turned around and viewed the intruders with staring eyes and gaping mouths, which the band very innocently took for an expression of admiration, and they at once struck up the American Quickstep."

☞A good looking Irishman stopping at a hotel to warm himself, inquired of the landlord, "what was the news?"

The landlord, disposed to run upon him, replied:

"They say the devil is dead."

"An' sure," says Pat, "that's news indade!"

Shortly after he went to the bar, laid down some coppers and resumed his seat.—The landlord always ready for a customer, asked him what he would take.

"Nothing at all," said Pat.

"Why then, did you put down this money?"

"An' sure, sir, it is the custom in me own country, when a chap loses his daddy, to give him a few coppers to help pay for his wake."

☞"Where are you going so early?" asked a father to his little daughter, already dressed in her sun-bonnet to go out.

"To the morning prayer-meeting, papa," she replied.

"Prayer-meeting!" he cried; "what in the name of common sense do they have them so early for?" For this father did not like prayer meetings very well.

"It is not as early as the birdies have theirs, papa," answered the little girl; they begin at day-break; and oh, they praise God so!"

☞Here is a copy of an original letter picked up in one of the streets of Des Moines—out West: 'des Moines iowa nov. 12, 1858—my Dear miss—the pleasing prospect I have of taking you out a slaying the first good snow that comes is enough to lift my sole above the sordid vanities of this world with such an intelligent young lady as you are. yours in love purity and fidelity. A Romance in Politics.

One of Texas' distinguished citizens, name not given, who has figured largely in public life, first as a lawyer, then as a soldier in the Mexican and Indian wars, and then, as a leading politician, has the following related in a sketch of his life by the New Orleans *Christian Advocate*. He had been put up by his party in 1857, to succeed Gen. Houston in the U. S. Senate, but feeling called to the ministry, and distrusting his own ability to resist the temptations of Washington life, was unwilling to accept the nomination. He laid the case before his wife leaving to her the choice between the U S. Senate and destruction to his morals, and the pulpit and salvation:

"Taking the letters and papers from all parts of the State, giving him assurance of election, he went to his wife and said:—'I can go to the U. States Senate. Here are the evidences. If you wish it I will go—But if I go hell is my doom. I shall die a drunkard as certain as I go to Washington. I can yet escape. If I pass this point, I never can. I can enter the ministry, which I ought to have done long ago, and save myself from a drunkard's grave, and my soul from hell. But you shall decide.' His poor wife, unwilling to relinquish the glittering prize in view, replied, weeping, that she could not see why he could not be a great man and a Christian too. But after prayerful reflection, she would not incur the fearful responsibility of deciding against his conscience, and told him to go into the itineracy, and she would go with him. To the astonishment of the whole State, a letter from him appeared in the papers, just before the meeting of the legislature, declining the office and announcing his retirement from political life. The next thing that was heard of him was that he was preaching."

An Old Man's Advice.—The Rev. Daniel Waldo, late chaplain to Congress, says:—I am now an old man. I have seen nearly a century. Do you want to know how to grow old slowly and happily? Let me tell you. Always eat slowly—masticate well. Go to your food, to your rest, to your occupation smiling. Keep a good nature and a soft temper everywhere.—Never give way to anger. Cultivate a good memory, and to do this you must always be communicative; repeat what you have read; talk about it. Dr. Johnson's great memory was owing to his communicativeness. You young men who are just leaving college, let me advise you to choose a profession in which you can exercise your talent the best, and at the same time be honest."

Anecdote of Daniel Webster.

The Boston (Mass.) *Courier* relates the following: Mr. Webster married the woman he loved, and the twenty years which he lived with her brought him to the meridian of his greatness. An anecdote is current on this subject, which is not recorded in the books. Mr. Webster was becoming intimate with Miss Grace Fletcher, when the skein of silk getting in a knot, Mr Webster assisted in unraveling the snarl—then looking up to Miss Grace, he said, 'We have untied a knot, don't you think we could tie one?' Grace was a little embarrassed, said not a word, but in the course of a few minutes she tied a knot in a piece of tape and handed it to Mr. Webster.—This piece of tape, the thread of his domestic joys, was found, after the death of Mr. Webster, preserved as one of his most precious relics.

A Nut for the Swans—A Mr. Trombly has been sinking a well on the western outskirts of our village, in the progress of which the following astounding fact appeared. At the depth of twenty-five feet the workmen came upon frozen ground!—Through this layer, some fifteen feet in thickness, they worked their way by dint of persevering efforts such as are always necessary in digging compactly frozen earth.—At the depth of forty feet water was obtained, which nightly froze over, the ice forming some three inches in thickness.—Will some one account, on any known or unknown principles of philosophy, for these astonishing facts? We learn the freezing of the water continues now that the well is 'stoned up.'—*Northern Visitor, Brandon, Vt.*

☞It is not natural for a cow, any more than for other female animals, to give milk when she has no young to nourish. The permanent production of milk is a modified animal function, produced by an artificial habit for several generations. In Columbia, the practice of milking having been laid aside, the natural state of the function has been restored. The secretion of milk continues only during the suckling of the calf, and is only an occasional phenomenon. If the calf dies, the milk ceases to flow, and it is only by keeping him with his dam by day, that an opportunity of obtaining milk from cows by night can be found.

☞The barking of dogs is an acquired hereditary instinct, supposed to have originated in an attempt to imitate the human voice. Wild dogs and domestic breeds which become wild, never bark, but howl. Cats, which so disturb civilized communities by their midnight "caterwaul," in the wild state in South America, are quite silent.

☞The hair of the negro is not wool, but a curled and twisted hair. The distinction between hair and wool is clearly revealed by the microscope.

☞Young ladies are like arrows; they are in a quiver till the beaux come, and can't go off without them.

Vesuvius.

We have been permitted to make an extract from a letter addressed by Hon. Joseph R. Chandler, Minister Resident of the United States at the Court of Naples, to Professor Henry, of the Smithsonian Institution, in which Mr. Chandler furnishes a brief account of the circumstances current at Naples at the date of the letter, December 16th, relative to an expected eruption of Mount Vesuvius. He says:

"At the present moment the people of this city are in great excitement at the indications of dangerous eruptions from Mount Vesuvius. For a long time great masses of lava have been issuing from apertures on the side of the mountain, about half-way up; and these apertures have been augmenting in number and size so rapidly that not only is there apprehension of an eruption, but serious fears are expressed that the sides of the mountain will soon be so worn and perforated as to be no longer able to sustain the superior portion, and people are leaving the vicinity and coming into the city proper. Last night the mountain was truly grand. The hundreds of great fires on the sides (red-hot lava) were terribly brilliant, while the vast volume of smoke that rose slowly from the crater above had its side illuminated by the fire on the flanks, and presented an appearance of indescribable grandeur. I, of course, am unable to say whether those fears are well founded; but they are entertained by men of science and experience here. To day the people of the city are commemorating the first anniversary of the awful earthquake of 1857, and they are all going to church. We seek God when we find no help in man, and perhaps it is a part of God's providence that we should be visited with scourges that man cannot direct or withhold."

A Queer Paper.

A traveler in Norway, writing to the Boston Recorder, gives an account of the northernmost paper in the world, the Tromsoe Times. It is printed at Tromsoe, a little island village, of about 4,000 inhabitants, on the coast of Norway, at three degrees within the polar circle. The Summer Sun kindly looks in at the office windows at midnight, to see that the forms are properly set up. The Times is a four paged semi-weekly sheet, with only two columns on a page, and is about the size of a quarto book form. The style of type is the Gothic, which has been discarded in Sweden, and to a considerable extent in both Germany and Denmark. The latter are the only nations which retain the Gothic hand-writing.

Sharp, Sharper, Sharpest.—They have a sharp set of fellows in Kansas City. We heard a good story of a trick played by one of the residents of that city a short time since. A lean, lank, swallow-faced individual rode a mule into Kansas City and wanted to sell him. A genius standing by, offered to sell him for five dollars. The offer was taken, and the mule disposed of, the auctioneer warranting a good title.—The purchaser had scarcely got his mule home, when a Shawnee Indian came into the city in search of a mule that had been stolen from him. The auctioneer was on hand again, and offered to show the Shawnee where the mule was if he would plank down a V. The Indian paid, and the auctioneer, after pointing out the mule, went to the new purchaser and told him how the case stood, at the same time offering to run the mule across the river for ten dollars.—The bargain was struck, and the auctioneer mounted the mule, and that is the last that has been seen of of the auctioneer or mule. —*Leavenworth Times, 8th.*

A Rolond for an Oliver.—A certain chief justice, on hearing an ass bray, interrupted the late Mr. Curran, in his speech to the jury, by saying, 'One at a time, Mr. Curran, if you please.' The speech being finished, the judge began his charge, and during its progress the ass sent forth the full force of its lungs, thereupon the advocate says: 'Does not your lordship bear a remarkable *echo* in the court?'

☞The other day, while over in Jersey, a tall, long-legged, big, flat-footed, six foot Vermonter came up to us with a rush, holding in his hand a pillow case well filled undoubtedly with "home affairs and fixings," and also gnawing away on a large cake of gingerbread. "Can you tell me, sir, what time the cars come in?" The cars, sir? Yes, sir. The cars, sir, come in after the locomotive." Down went the pillow case—off went his coat and away we scampered.

☞Some one was telling an Irishman that somebody had eaten ten saucers of ice cream; whereupon Pat shook his head—'So you don't believe it?' With a shrewd nod Pat answered, 'I belave in the crame, but not in the saucers.'

☞At the closing of the sitting of the House of Representatives, at Springfield, Illinois, last week, the clerk read the following: "I am requested to announce that Rev. Dr. McFarland will deliver a lecture this evening in this Hall, on the 'Education of Idiots.' *Members of the Legislature are invited to attend.*"

☞An Irish dragoon, on hearing his widowed mother had married since he quitted Ireland, exclaimed: 'Murther, I hope she won't have a son oulder than me, if she does I shall lose the estate.'

☞Fights are very easily got up. All that is required are three participants—two block-heads and a pint of rum.

Going to Europe in a Balloon.

The Troy *Times* of January 14th, says: John La Mountain, the aeronaut, is again in this city, where he will remain a few days He has made arrangements for the construction in Boston of a balloon with which he designs to make an attempt to cross the Atlantic next Summer. The money is to be furnished by a wealthy gentleman of the modern Athens, who has sufficient confidence in the practicability of the scheme to make a venture in it. The balloon is to be of silk, with an ascensive power which will make it capable of carrying a life boat stocked with provisions and for passengers. The power it is designed to employ is the gun-cotton engine—one of which, owned by a gentleman of Springfield, Mass., has been tested, and found to operate satisfactorily. Before the venture at sailing over the ocean, it is designed to make three long voyages, starting from Western cities for the purpose of testing the capacity of the balloon, and the effect of the employment of machinery. Mr. Wise, the 'father of ballooning in America,' who has been in consultation with Mr. La Mountain, approves of his plan in all its details, and will give him the benefit of his remarkable experience in suggestions as to the manner of carrying it out.

High Farming vs. Insects.

Speaking of the insects infesting the wheat crop in this and the old country, the Mark Lane Express thinks that the production of insects is greatly promoted by the defective system of agriculture in this country, remarking that 'when the average product of wheat in England was only two and a half quarters per acre, the ravages of insects were far more general and destructive than they are now when the average has risen to four quarters and a half.—High farming is as destructive to vermin as to weeds, and it is rarely that the devastation committed by highly cultivated land is very serious.'

☞The Michigan Legislature has "put its foot in it," by voting 640 acres of land to Mrs. Rogers because she produced four little Rogerses at one and the same time. It has set a precedent which may cost the State thousands of acres of land. The Detroit Free Press says Mr. Job Burnap, of Sumpter, Wayne county, has applied to the Legislature to divide its favors. His papers set forth that Mrs. Burnap "has given birth to nine children at four births, three of whom were born ten months after marriage;" that he is a poor man, and therefore prays for a donation of land, as in the case of Mrs Rogers.

Manufactures in Massachusetts—There are in Massachusetts two hundred and ninety-four factories, with a capital of thirty-two millions of dollars, and one and a half millions of spindles, which put into the market manufactures worth thirty-four millions of dollars yearly. More than half the cotton factories in this hemisphere are within the limits of this State, and more than two-thirds of the invested capital belongs to it.

An Amusing Mistake.—The editor of the Frankfort, Ky., *Commonwealth*, recently when somewhat forcibly expressing his opinions, wrote, "we will defend our views to the last," but the printers made him say, "we will defend our *wives* to the last;" which, certainly would have been a most heroic and gallant determination, if the fair ladies had been in any danger; but it appears that the editor in question has no wife; and that other men's wives are not alarmed at any very imminent peril; and consequently the heroic language looks a little out of place. Accidents will happen in the best regulated printing office.

☞The circumference of the earth is 25,020 miles. A railway train, traveling incessantly night and day, at the rate of twenty-six miles an hour, would require six weeks to go round it. A tunnel through the earth, from England to New Zealand, would be nearly eight thousand miles long.

☞Crinoline and hoops are said to operate unfavorably to the starch manufacturers. It is stated that a starch factory in Buffalo has been compelled to suspend operations from this cause, and that another very celebrated establishment is running at a very small rate.

☞'Defects of a preacher are soon spied,' says Martin Luther, in his Table Talk. 'Let a preacher be endued with ten virtues, and have but one fault, that one fault will eclipse and darken all his virtues and gifts, so evil is the world in these times.'

Family Depravity.—At Sheboygan, Wis., a few days since, a miserable woman named Mary Brooks, while in a fit of drunken frenzy, stabbed her sister Ann, killing her instantly. The murdered woman is the eighth, out of a family of nine sisters, who have led abandoned lives, and filled premature and dishonored graves.

☞There's no telling what a day'll bring forth, as Mr. Day said when Mrs. Day had triplets.

☞An impudent fellow accosted a young lady rudely the other evening, and she set a dog on him. She was *chaste* and he was *chased!*

☞A tailor, who in skating fell though the ice, declared that he'd never again leave a hot goose for a cold duck.

☞A man was baptized in the Poestenkill Creek, Renselaer county, N. Y., through a hole cut in the ice, while the thermometer marked 11 degrees below zero.

The Tariff - Caucus of Democratic Senators—No Change to be Made this Session.

WASHINGTON, Jan. 29 —The democratic Senators held a caucus this morning on the subject of the tariff.

Mr. Hunter, of Va., offered a resolution declaring it inexpedient to change the law at the present session.

Mr. Bigler proposed a substitute, as follows:

Resolved, That the revenue being insufficient to meet the expenses of the government, it is wise and expedient to increase the import duties to meet the deficiency.

Mr. Bigler's substitute was voted down.

Mr. Hunter's resolution was adopted by a large majority.

Mr. Slidell thereupon offered a resolution, which was adopted, that it is the duty of Congress to look rather to the reduction of expenditures than to the increase of revenue.

There was much excitement during these proceedings, during which Mr. Hunter expressed the opinion that with the revival of business there would be sufficient revenue for the purposes of the government.

Mr. Bigler, it is understood, spoke of the suffering industrial interests, and urged an increase of the duties. He said the public debt was now sixty four millions, and it would be a hundred millions by the 30th of June, 1860, without the thirty millions proposed to be added to the foreign intercourse fund, looking to the purchase of Cuba.

Messrs. Toombs (Ga.) and Benjamin (La.) were willing to favor specific duties on the great staples, but against attempting anything at the present session.

Mr. Iverson (Ga.) favored an increase of the tariff as absolutely necessary; while not favoring specific duties he would be willing to give 30 per centum on iron.

Mr. Douglas (Ill.) thought it was important that the democratic party should settle its policy as to whether it would favor specific or ad valorem duties.

Mr. Hunter (Va.) replied that all seemed to agree on the policy that the tariff should be for revenue, but that the mode of assessing the duties was not a party test.

Mr. Fitch (Ind.) acquiesced in this view, remarking that the senatorial democratic caucus while held for a conference, never sought to bind men to vote for its measures.

The result of the caucus has caused much excitement among the members of Congress and others.

The President will probably send a message to Congress early next week, showing a deficiency of twenty millions, and urging the necessary arrangement to relieve the government from the prospective financial embarrassment, reminding Congress that only four weeks are remaining of the session.

Love, Elopement and Suicide.

BELLOWS FALLS, Vt. Jan. 28 —A young man named Harrison Sanders, eloped last night with the wife of his brother, Daniel Sanders, from Springfield, Vt., came to this place and took a room at the Bellows Falls House. The husband and the sheriff pursued them, and the parties, finding themselves caught, took strychnine. Young Sanders died in twenty minutes. The woman is expected to recover.

Another Fearful Camphen Warning.—Mrs. Chas. Dennis was burnt to death in Syracuse, N. Y., on the 24th ult., by a camphen explosion. She attempted to rekindle a fire by pouring the liquid on it, when the fluid took fire in some unknown manner and instantly communicated to the contents of the can, which exploded, driving the bottom out of the can and throwing the burning fluid over her person.—Her clothes were immediately in a blaze, and the poor woman, frantic with excitement, rushed through the hall and into another boarder's room to obtain assistance. She threw herself upon a lounge, upon which a little child was sleeping, setting fire to the lounge and the child's clothing, but without succeeding in extinguishing the fire on her own person. Finally, some of the lady boarders, who ran to the spot, had the presence of mind to throw some clothing over the burning woman and extinguishing the flames. On removing her to her room it was found that her whole person was dreadfully burned, and the skin peeled off her neck, arms and hands at the touch. Her body was nearly burned to a crisp, and the sense of feeling almost entirely destroyed.

Sentenced.—The brothers Doyon, convicted of murder in the second degree, for killing their sister in Michigan, have been sentenced to imprisonment in the penitentiary for 15 years each.

Fatal Effects of Heavy Reading.—A young girl aged sixteen, named Martin, residing at Myersville, Duchess county, was so badly burnt a few nights since by her clothes taking fire that she died in two hours. She was reading a paper, when she fell asleep, and the paper taking fire, the flames communicated to her clothing, burning her so dreadfully that she died.

Conjugal Bliss.—The wife of a Mr Brooks, at Homer, N. Y, the other day threw a knife violently at her husband, which put out one of his eyes. The amount of her conjugal grief may be measured by the fact that she said afterwards she would have given five dollars rather than have it happen.

A Boy Carried over the Falls of Niagara.—A sad accident occurred at Niagara Falls on Saturday. An adopted son of Mr. Gibbs, foreman of the paper mills, accidentally fell into the river and was carried over the American Fall, and of course lost.

The Poor of New-York City.—If anybody doubts that the poor are always with us, the report of the "Superintendent of Out-Door Relief" will give him an idea or two. The petitions for relief since New Year's day have been *twenty thousand*, about two-thirds of which, the Superintendent says, have been attended to.

☞The Democrats of Connecticut had a lively time in their State Convent on caucus on Thursday evening. The Douglas men carried their measures five to one, and adopted strong resolutions nominating him for the Presidency.

☞There was on exhibition at Philadelphia, on Monday last, a mammoth hog, raised by Mr. Bishop, of Lancaster county, which weighs 1235 pounds, considered to be the largest ever brought to that market.

THE ADAMS SENTINEL.

GETTYSBURG:

MONDAY, FEB. 7, 1859.

☞Philip A. Myers has been appointed Postmaster at New Chester, this county, in the room of Eliza Heinard, resigned.

☞Rev. MILTON VALENTINE, formerly of this place, has been chosen pastor of St. Matthew's Lutheran church at Reading.

☞Mr. HENRY WERTZ, as agent, sold the house and lot of MARGARET GALBRAITH, in Hunterstown, on the 22d ult., to JOHN DICKSON, for $890.

☞On account of the absence of DAVID WILLS, Esq., on Friday evening last, there was no lecture before the Y. M. Christian Association. The next Lecture will be by the Rev. Mr. KEISER, on Friday evening next, in the Presbyterian church, at 7 o'clock. Subject "The Power of Individual Influence." The remaining Lectures of the course will be as follows:—Prof. JACOBS on the 18th, Dr. C. HORNER on the 25th, Rev. Dr. KRAUTH, on the 4th of March, and D. MCCONAUGHY, Esq., on the 11th.

☞The Adams County Teachers' Association will convene in this place on Tuesday next. Its sessions will be held in the new and commodious Public School house on High street. This convention is looked forward to with interest by all those who are concerned in the education of the youth in our Common Schools.

☞The Baggage-car attached to the Wednesday noon train was thrown off the track below 'Wible's Cut,' and very much damaged. The locomotive and passenger car remained on the track undisturbed.—This occasioned so much delay, that the down train for Baltimore failed to make a connection at the Junction.

☞An accident of a similar character occurred on the Littlestown Branch, on Saturday, owing to which we had no noon train, the only engine in present use by the Hanover Company being engaged at the time there.

☞The house of our neighbor, Mr. JOHN BROWN, was entered on Friday evening week, during the absence of the family, and robbed of a coat, silver thimble, and some meat and other eatables. There has been no clue to the rogue. Housekeepers should be on their guard.

☞At the recent Communion in St. James Church (Lutheran) in this place, Rev. Mr. Keiser pastor, 21 persons were added to the membership by confirmation, 3 by certificate, and 1 by baptism.

☞Mr. PHILIP DOERSOM has been elected Orderly Sergeant of the 'Independent Blues,' in the room of C. X. Martin, resigned. He will make an excellent officer.

The Berlin Railroad Survey.

We learn that J. S. GITT, Esq., Civil Engineer, has completed an instrumental examination of the route of the proposed railroad from New Oxford to East Berlin. The survey was commenced on Wednesday of last week and finished on Saturday — The surveying corps of Capt. Gitt comprised some sixteen or eighteen persons. A large number of spectators accompanied the party.

☞Mr. HENRY SHULTZ, of Huntington township, slaughtered a Steer a few days ago, which weighed 1152 lbs. clean neat.

☞Mr. F. B. PICKING deires us to say that he is selling off his stock of Winter clothing at great bargains—being determined to dispose of them in order to make room for his Spring and Summer Goods.

☞The election for Mayor of Lancaster took place on Tuesday last, and resulted in the election of Mr. Sanderson, (Dem.) by 7 majority over Mr. Burrowes, (People's.) The vote was heavy.

☞Our friend Haller, one of the Editors of the Frederick Examiner, met with a very serious and painful accident on Friday week. In attempting to oil some part of their power press, his coat sleeve was caught in the cog-wheel, and his left arm drawn in. The press was running slowly at the time, and was fortunately stopped before his hand was irretrievably crushed or taken off; but not before it was dreadfully lacerated, the flesh of the palm and back of the hand being torn off. It was skillfully dressed, and shows a kindly disposition to heal.

Another Murderer Convicted.

Henry Duvall was convicted at Baltimore on Friday, of murder in the first degree, of Christian Fischer. This makes the sixth now in jail there, under conviction of murder in the first degree. Besides these, there are five more cases of murder on the docket of the Criminal Court, besides the seven who were acquitted at Towsontown on Friday. This shows an awful state of things at Baltimore.

☞Hon. Wilson McCandless has been nominated by the President to the Judgeship of the U. S. Court at Pittsburg, left vacant by the resignation of Judge Irvin.

Deserved Punishment.

Cornelius M. Donovan, of Philadelphia, an ex-member of the Legislature, who was convicted of an assault and battery on Joseph M. Church, a member from the city, at Harrisburg, was, on Tuesday last, sentenced by Judge Pearson to an imprisonment of three months, to pay a fine of $200, and to give security in $1,000 to keep the peace. The Judge also fined two witnesses, who had kept out of the way when their names were called, one $5, the other $20, and costs, for contempt of Court. The Judge "walks in" to them right.

Folly and Wickedness.

The New York State Anti-Slavery Convention was in session at Albany last.—Among the resolutions adopted were the following:

Resolved, That in advocating a dissolution of the Union, the abolitionists are justified by every precept of the gospel, every principle of morality, and every claim of humanity.

Resolved, That the Union is a covenant with death, and ought to be annulled—an agreement with hell which a just God cannot permit to stand—and that it is the paramount duty of all to seek its immediate overthrow.

☞The board of Canal Commissioners gave up the ghost and died a disgraceful death on the 25th of January, 1859. During the last few days of the existence of the Board, says the *State Sentinel*, some of the old and oft rejected claims were reconsidered and allowed. In one instance, so notorious was the injustice to the State, of allowing a rejected claim for more than $5000, that the holder could not even sell his warrant, after he had obtained it, although he offered a large discount! And such has been the public protest against it that the State Treasurer refused to pay it.

The State Printing.—The allotment of the State printing was made on Tuesday, by the Speaker of the two Houses of the Legislature, to A. B. Hamilton, at the rate of a fraction over 9 cents per 1000 ems and the same per token for press work. This is cheap printing with a vengeance—6000 ems are considered a good day's work for one man—which would make his wages just 54 cents.

☞The imports of dry goods at New York since the 1st of January amount in value to $16,694,120, against only 6,890,614 for the same time last year. The supposition that the tariff will be increased accounts in a measure for the present large imports.

☞A reduction of expenditures is much talked of at Washington as an alternative to a higher tariff, and the navy and post-office service are indicated as subjects of the proposed reduction to the amount of eight millions, which will effectually paralize those establishments at a time when the public interests require an increase of mail facilities and of naval service.

The Way it was Done.—It is said that the facts will very soon be revealed to show the people that a Massachusetts Democrat invested $16,900 in the election of 1856, to secure the success of Mr. Buchanan, and that he has received, since that event was consummated, about $600,000 out of the Treasury on a live oak contract—$200,000 of which will be clear profit.

No Democratic Party.—The Washington *States* declares that there is no longer a Democratic party, and cites, in proof of its assertion, the dissensions between President Buchanan and Secretary Cass on the question of squatter sovereignty, between Buchanan and Floyd on the question of the Pacific Railroad, and between Buchanan and Cobb on the Tariff question. It says that on no single issue is there concord in the party, and asserts that the confusion of Babel was not equal to the present discord of the Democracy.

☞Wm. H. Prescott, the celebrated historian, died at Boston, on Friday week, very suddenly, of paralysis. He had been enjoying his usual health up to the moment of his death. He was in his 63 I year.

A Long Term—When Mr. Douglas shall have filled out the term in the Senate to which he has just been elected, he will have served twenty-two years in Congress—four in the House and eighteen in the Senate.

Killed by Lightning.—On the 21st ult, Dr. J. L. Nixon, a practising physician and Baptist clergyman, of Troy, Ala., was instantly killed by lightning. The shock was a most severe one, and came near killing other members of his family, who were, seemingly, equally exposed with himself. The only member of the family who suffered materially besides the Doctor, was a little girl—his daughter—about eight or ten years of age, who was, for a time, apparently dead; but the physician, who was soon on the spot, immediately exposed both bodies to the drenching rain which was falling in torrents, and the child soon began to show signs of returning life.—*Troy American.*

Row in a Jury Room.—A row occurred in a jury room in Pittsburg, Pa., a few days ago. They stood eleven against one on a knotty case, when the one became insolent, and giving the lie to an old man, he was put through in good style. Three broken chairs were found in the jury room, and there were other evidences of a general muss.

☞The steamer North Carolina, an elegant boat which plied between Baltimore and Norfolk, took fire on the night of the 28th ult, off the mouth of the Potomac, and was entirely destroyed. There were 29 passengers on board, besides the officers and crew. By the firmness of the Captain, perfect order was observed, and all were got off safely in the life boats, except the Rev. Dr. Curtis, President of a College at Chester, S. C., and a colored steward, named Walters, both of whom perished. The passengers, of whom 7 were ladies, were all in bed, and they all barely escaped to the boats in their night clothes, not having an opportunity to get even their shoes and stockings—and they suffered very much from cold. They reached another small boat about five o'clock on Saturday morning, and were taken on board, and at 9½ reached a steamer, to which they were transferred, and they reached Norfolk on Sunday morning at 4 o'clock, where they were kindly received by the citizens, furnished with clothing, and provided with comfortable quarters until they could go to their homes.

Rev. Dr. Curtis.—This gentleman, who lost his life by the burning of the North Carolina, is said to have been hurrying home to attend the funeral of a member of his family. He was a gentleman of polished manners, a fine writer, and a clergyman of the Baptist church. Formerly he was connected with the publication of the "Electric Review" in London, and a reporter of the debates in the British Parliament.—About twenty years ago he removed to this country, and became pastor of the Baptist church in Bangor, Maine. Subsequently he took the pastoral charge of the Wentworth street Baptist church in Charleston, S. C. At the time of his decease he was principal of a female seminary at Chester, S. C. He was in the 78th year of his age at the time he met his unfortunate death.

WASHINGTON, Jan. 31.—The House special committee on the subject, this morning, by a vote of 7 against 5, authorized Mr. Curtis to report his bill for a Central Pacific Railroad, with one branch on the frontier of Iowa and another on the frontier of Missouri. The bill was modified at the instance of Mr. Corning, by increasing the amounts of land and money so as to make the measure practical.

Strangers in Washington.—The hotels of the federal metropolis are overflowing with guests. It is said that never before, except on the occasion of the inauguration of a new President, were they so crowded.

Sudden Death.—Mr. John Stover, an aged and much esteemed citizen of Quincy township, Franklin county, died very suddenly, on the 25th ult, under the following circumstances: He was on a visit to a neighbor about a mile from his own residence, (Mr. John A. Shank) in his usual health, and while in the act of getting on his horse to return home, he fell back and expired almost instantly. The deceased was about 70 years of age.

Marriage and Death.—A marriage took place at Prattsville, Greene county, New York, at 7½ o'clock on the evening of the 10th ult., and at 9 o'clock on the same evening, or an hour and a half afterwards, the husband wept beside the bride of death.' Here is the sad record:

MARRIED —In Prattsville, on the 10th Jan., by P. K. Salisbury, Esq., JOHN BIVENS, of Middletown, Delaware county, to Miss M. A. TURK, of Prattsville, Greene county.

DIED —In Prattsville, on the 10th Jan., of asthma and hemorrhage of the lungs, Mrs. M A. BIVENS, wife of John Bivens, in the 28th year of her age.

☞The latest news from Mexico represent that unfortunate country in a state of distraction and civil war, without any prospect of peace.

It is stated that the French and English ministers had notified the Government that unless $1,000,000 were paid to satisfy the claims of British and French subjects within sixty days, their fleets would take possession of Vera Cruz and Tampico.

The Franklin Railroad.—The Hagerstown Mail states that Franklin railroad bonds to the amount of $50,000 have been taken in that county, which renders certain the relaying of the road, at an early day.

AUGUSTA, Ga, Jan. 31 —The Adams Express was robbed between Montgomery and Atlanta on Friday, of $40,000, mostly in fives and tens Georgia and South Carolina bank notes. A reward of $5,000 has been offered.

Heavy Damages—A verdict was rendered in the Supreme Judicial Court at Boston on Saturday, against the Boston and Worcester railroad, for $22.240 damages. The award is to Mrs. Sarah E Shaw, whose husband was killed and herself badly injured some years ago by a train on the road coming in collision with the plaintiff's carriage.

Heavy Damages Claimed for Slander.—A man named Timberman, of Cincinnati, Ohio, having lost some money, went to a fortune-teller to learn who took it.—Acting upon the advice of this impostor, he accused a respectable citizen, with his wife and her sister, of having taken the money, and they have instituted proceedings against him for slander, laying their damages at $50,000.

Further from Paraguay.

Preparations for War.—The advices from Paraguay indicate considerable opposition to the demands of the United States. One of the journals there pronounces our claims as preposterous, and indulges in no little denunciation of President Buchanan and Congress. A correspondent of the New York Herald, at Buenos Ayres, writes:

Lopez always has 40,000 men ready for the field, and there is at the mouth of the Paraguay a fort which was intended to protect the capital. The batteries command the whole river and mount 101 guns, and 12,000 men are assigned to the post. It is a problem whether the United States government has done wisely in sending so small a force out upon the Paraguay expedition. To try to reach the capitol by land would be preposterous, and a well appointed fort is hard to pass.

Further from Hayti—Defeat of the Emperor—Probable Abdication.

BOSTON, Jan. 31.—An arrival from Jeremie brings letters to the 12th inst. It is reported that the emperor has been compelled to return to Port au Prince with the remainder of his troops. He will be forced to abdicate. The empress advised him to do so, and he threatened to shoot her, but was prevented by the interference of several of his generals.

A letter from Gonaives says, that the republicans, if successful, will re-open to commerce the ports which have been closed for years, and will probably revoke the odious monopoly law.

Fire and Loss of Life.—On Tuesday morning at 2 o'clock, a house of ill-fame, kept by a woman named Fay, was destroyed by fire in Cincinnati, and a girl named Josephine Ellison, perished in the flames. She was recently from Nashville, and the Commercial says:

She was about eighteen years of age, and represented to have been of remarkable beauty, and the possessor of attainments well qualified to fit her for a high position in society. Immediately after the inquest she was placed in a coffin, with the charred remains of gaudy finery as a winding sheet, and removed to the place of burial. No friend followed. No sorrowing train formed an escort. Not a tear was shed as the hearse moved away, bearing in its solemn enclosure the form of her who now sleeps alone in that narrow home, unmarked by aught save the fresh made hillock of the sexton.

The Unfortunate Girl.

Remarkable Funeral.—Josephine Ellison, the young girl of abandoned character, who was burned to death at a house of ill-fame in Cincinnati, was not even allowed to rest in her grave. Some medical students had her 'resurrected,' but the police recovered the body, which was handed over to the undertakers for the purpose of reburial. The frail sisters of the poor unfortunate contributed liberally to purchase an expensive coffin, and to pay the funeral charges. They applied to several clergymen to allow the funeral to take place in one of their churches; but all refused, until finally the Rev. Mr. Flanders, (formerly of Baltimore,) of the First Universalist Church, was applied to. He readily consented, and preached an impressive discourse to a large assemblage in the church, whither the body had been conveyed.—Nearly one hundred courtesans were present, and those who resided in the house where the girl met her death were dressed in deep mourning, and seemed to appreciate the solemnity of the occasion. The Cincinnati Times says:

At the close of the address, Rev. Mr. Flanders addressed the Throne of Grace, appealing especially in behalf of the parents of Josephine Ellison. That closed the services. The undertaker then lifted the lid of the coffin and invited all who wished to view the corpse. There was quite a rush towards it. The courtesans, however, remained in their seats until the rest of the congregation were gratified. They then approached the corpse. All wept over it, some of them bitterly. It was a strange scene that. To behold those abandoned women, outcasts from society, victims of vice, weeping and sobbing over the remains of one of their kind, upon the altar of a church, was a sight never before witnessed in this city. It was touching, too, and drew tears from the eyes of many of the spectators.

A lady writes to the Commercial:

"I knew the young girl, Josephine Ellison. I warned her to 'flee from destruction and go home.' She was a ripe scholar and of good parentage. Thousands are going this day the same road, and the moral portion of the community stand by and permit these *halls* to exist all around us.—When she came to this city her object was to teach needle work, and Italian and French. Those in whom she trusted betrayed her."

A PASSENGER CAR TURNED OVER AN EMBANKMENT—*Eighteen or Twenty Persons Wounded.*—Last evening, as a passenger car attached to a freight train, on the Dayton and Xenia Railroad, was passing from the former to the latter point, the coupling broke, and threw the car, which contained some twenty-five passengers, over an embankment of about fifteen feet. The car was turned upside down and badly broken, and about eighteen or twenty persons were wounded, but none of them seriously.—Several Cincinnatians were on board, and Mrs. Louis Worthington had her ankle sprained, and a Mr. Watson fractured his arm. These were the only names we were enabled to obtain. The accident was very fortunate, as, under the circumstances, it is singular no one was killed, or at least very badly injured.—*Cincinnati Gazette, Jan* 25.

☞There are now 209 papers in Canada.

From Europe.

We have news from Europe to Jan. 12, one week later, by the arrival at Halifax of the steamship Arabia. There was continued disquietude experienced on the continent, and warlike rumors were still circulated, but the panic which prevailed in monetary circles had sensibly subsided. This abatement was particularly shown in the London money market, although the market was decidedly more stringent. The Paris Bourse also shared an improvement, but the rates still fluctuated. The Parliament of England was summoned to meet on the 3d of February. The Belgian cabinet has been dissolved. Large Austrian forces had reached Lombardy, and the chances of a revolt by the inhabitants of that country were rapidly diminishing. The commercial advices show a very general depression in prices, an increased stringency in the London money market, and a decline in consols.

LATER.—The steamer Arago, from Havre, arrived at New York on Saturday.—The Arago brings 126 passengers, and 850 tons of merchandize, valued at $2,000,000. The European war panic is rapidly increasing. Another drop of one per cent in the French funds, and of a half per cent. in the English, occurred, and every capitalist seemed endeavoring to protect himself from the coming storm.

Terrible Affair.

A Whole Family Burned to Death!—A shocking calamity occurred near Allegheny City, Pa., on Monday night about 1 o'clock, involving the loss of the lives of a man named Rogers, his wife, and four out of five children. The Pittsburg Journal says:

This Rogers and wife had, it seems from the evidence of the neighbors, for sometime given themselves up to hard drinking, and though he owned the property on which he lived, yet so worthless had he become that the family had been supported by the neighbors out of charity. He and his wife frequently had quarrels, and so common had their quarrels and noises become to the neighbors that but little attention was paid to them. Screams were heard by the neighbors in the house before the fire was discovered by them, but supposing that they were, as usual, occasioned by a drunken fight, and as they were known to have been drunk all day, nothing was thought of it till the flames were seen. But it was too late; the drunken husband and wife, father and mother, were consumed in the first story, while the cries of poor innocent children, the innocent victims of the infernal vice of their parents, went up in hopeless agony from the second story, where the merciless flames had encircled them with their fiery and fatal wreaths before human aid had reached them. The only one saved was a boy who got out on the porch. The house was dry and burned like a flash. All that human aid could do was done, but it came too late. The two cities and neighborhood are thrilled with horror at this occurrence.

Rogers was a carpenter by trade, and the eldest child that perished was not over ten years of age. The one which made its escape was eleven or twelve years old.

☞The San Francisco Bulletin has Utah dates to November 29.

Says the Bulletin correspondent:—'Three unsuccessful attempts were recently made by Marshal Dotson and his deputies to serve a subpœna upon Brigham Young, requiring his attendance before the court as a witness. The first time the marshal went to the house, he was told that Brigham was not at home; but the second and third times the gates in the high stone wall which surrounds Brigham's house were shut in his face, and he was positively denied admittance although he stated his business and demanded admittance in the name of the United States. It will now be necessary for the court to issue an attachment requiring the marshal to take Brigham's body, and compel his attendance before court; and if he still refuses to allow the marshal to approach him, it will become necessary to call upon the army for assistance.'

☞*Lo! the Poor Negro.*—The Vicksburg Sun of the 4th ult, informs us that a runaway negro was caught at Black Hawk, a few days ago, with the hand of a white man in his pocket. It is said that the negro confessed that he had exhumed the body, and cut the hand off the dead man's arm, to act as a charm in keeping the dogs from following his track, and on the strength of his confession, he was hung A white silk glove was on the hand when it was found.

Shocking Parricide.—William Moody, an old citizen of Oxford, Ky., was killed on the night of the 24th ult, by a blow from a club in the hands of his son, Joseph Moody. The murderer, who was crazy from liquor at the time, was arrested.

A Double Elopement.—A Mr. and Mrs. Carsner, residing in Ohio county, Va., a short distance from the Washington county Line, took it into their heads not long since to exhibit a mutual disregard of their matrimonial vows in a cool and business sort of a way, that hardly has a parallel. Carsner ran away with two 'maiden ladies,' residing near him. And Mrs. Carsner ran away with a man whose name the Washington papers did not learn.

Death of Twins.—The twin sons of Mrs. Emily Lesdernier, the authoress and reader, both died in New York last week, within two days of each other, and were buried in one grave. They were 18 years of age, highly accomplished, and, for two years, held responsible positions on western railroads. They fell victims to consumption.

☞*An Unknown Wretch*, quietly entered the residence of a colored washerwoman at St. Louis, a few days since, and, unobserved by her, set her clothes on fire, and amid the awful screams of the victim, made off with six shirts. The poor woman died in awful agony. Was ever more atrocious diabolism known?

☞Col. Benton's furniture at Washington, is to be sold at auction. His property is estimated to be insufficient to pay his debts.

NEW YORK, Feb. 1.

A most unfortunate affair occurred about five o'clock yesterday morning in Third avenue. It appears that Henry Barnard, keeper of a pawnbroker's shop, has been for some time fearful of burglars entering his establishment, and therefore kept a pistol ready for their reception. At five o'clock yesterday Bridget Leddy, a domestic in the family, arose, and proceeded below stairs to make a fire. The noise made by her aroused Mr. Barnard from his slumbers, who was strongly impressed with the belief that burglars were in the house, he not giving it a thought that Bridget was up. He accordingly raised the second story window of his sleeping room, opening into the yard, and cried out 'who's there' several times. The noise was heard by the girl, who unsuspectingly thrust her head from the basement window and looked up for the purpose of seeing from whence the sound emanated. She was discovered by Mr. Barnard, but he mistaking her in the dark for a burglar, drew his pistol and fired down, sending one or two bullets into the right side of her neck and shoulder—Bridget gave one scream and fell to the floor, which brought Mr. Barnard to realizing the fact of the horrible mistake he had made. In his anguish he exclaimed, 'My God, I have shot the girl,' and ran down stairs where he found her almost speechless on the floor, and the blood gushing from her wounds. Medical aid was immediately summoned, but the unfortunate girl, it is feared, cannot survive. The girl does not blame Mr. Barnard, who is deeply distressed at the affair. He has been held to bail.

☞The election for Mayor of Frederick, and for Common Council, takes place on the 28th inst. The different parties are already in the field. Henry Houck, Esq is the American candidate; and Wm. G. Cole, Esq. the Democratic one.

Earnest and Final Notice.

THE undersigned having sold his Store in Arendtsville to Mr. Jacob Shank, and being now under the necessity of closing up his old business—earnestly requests his old friends and customers to come forward and settle up and adjust their respective accounts. It must be apparent to every one that this business will not admit of delay, and unwilling to be too strenuous in enforcing his claims, he would urgently request all those indebted not to make any delay, as his time and attendance in the Store is now very limited, and those who neglect this Notice will, after the 15th day of March next, find the Notes and Accounts given into other hands.

JACOB F. LOWER.

DR. S. FELLER'S
FAMILY MEDICINES

ARE the only preparations of the kind placed before the public under the name of ECLECTIC. They are called Eclectic because they are carefully and scientifically selected—the BEST from all the GOOD—and approved by the most scientific men in the United States. They do not contain any Mercury, Antimony, or Opium, or anything that would be deleterious to the most delicate constitution.

All who understand the curing of disease know that medicines only assist nature, and unless they act and harmonize with nature, disease cannot be cured. Want of a proper knowledge of these facts causes many of our fellow citizens to go down to an untimely grave.

I can therefore recommend this preparation with the utmost confidence, and am fully persuaded, from past experience at the bed-side of the sick, that it will give very general, if not universal satisfaction. Yet, at the same time, I do not pretend to say that it is a CURE-ALL, or that it is, in all cases and circumstances, infallible. For when a remedy is set forth as "Cure-All," "Infallible," &c., the conclusion with me is irresistible, that the proprietor himself believes his remedy to be a humbug, and designed from the start to deceive the public.

SAMUEL CRONCE,

Wholesale Agent, York Sulphur Springs, Adams county, Pa., and for sale by Dr. Buehler, Gettysburg; J. S. Hollinger, Heidlersburg; Jacob King, Hunterstown; and Jacob A. Gardner, Petersburg.

We would say to the public, that all we want is a fair trial, and it will recommend itself.

LINDSEY'S IMPROVED

BLOOD SEARCHER,

The only Acknowledged Remedial Agent for Impurity of the Blood, that does its work thoroughly, effectually, and without fail!

THIS great PURIFIER, now before the public but a few years, has already won a name and reputation unexampled in the history of any medicine ever invented. Its ingredients composing it are simple, yet in combination all powerful in driving disease from the human system. It cures Scrofula, Cutaneous Diseases, Pimples on the face, Old and Stubborn Ulcers, Tetter affections, Dyspepsia, Jaundice, Mercurial Diseases, Liver Complaint, Low Spirits, Cancerous formations, Erysipelas, Boils, Sore Eyes, Scald Head, Rheumatic Disorders, Costiveness, Salt Rheum, General Debility, Loss of Appetite, Foul Stomach, Female Complaints, and all Diseases having their origin in an impure state of the Blood.

Every Agent who has this medicine for sale has circulars on hand containing certificates from persons who have been cured by its use. Many of them are desperate cases, and commend themselves to the attention of those afflicted with any of the above diseases. The following certificate alone is selected as carrying with it the most undoubted evidence of the virtues of this wonderful medicine.

Sworn statement of David McCreary, of Napier Township, Bedford county.

In April 1856, as near as I can remember, a small pimple made its appearance on my upper lip, which soon became enlarged and sore. I used poultices of sorrel, and a wash of blue vitriol, without effect. Finding the sore extending, I called on Dr. Ely, of Schellsburg, who pronounced it CANCER, and prescribed a wash of sugar of lead and bread poultices. Finding these remedies of no avail, I called upon Dr. Shaffer, of Davidsville, Somerset county, who also pronounced the disease Cancer, and gave me internal and external remedies—the latter consisting principally of caustic; but all to no purpose, as the disease continued spreading toward the nose. I next used a preparation of arsenic in the form of salve. This for a time checked the disease, but the inflammation soon increased. I next called upon Dr. Stailer, of St. Clairsville, Bedford county, who also pronounced the disease Cancer, and applied a salve said to be a never failing remedy, but it had no effect whatever in checking the spread of the sore. In December of the same year, the disease had eaten away a greater part of my upper lip, and had attacked the nose, when I went to Cincinnati, where I consulted Prof. R. S. Newton, of the Eclectic Medical College. He pronounced the disease a cutaneous Cancer, superinduced by an inordinate use of mercury. He applied mild zinc ointment, and gave me internal remedies. My face healed up, but the inflammation was not thoroughly removed. In February, 1857, he pronounced me cured, and I left for home. In April the disease again returned, and so violent was the pain that I could not rest at night. Late in May I returned to Cincinnati, and again placed myself under the charge of Dr. Newton, with whom I remained until September, during which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home there were still three discharging ulcers upon my face. I continued using Newton's preparations, and also medicine that I got from Dr. Ely, but the Cancer continued growing until it had eat off the left side of my nose, the greater portion of my left cheek, and had attacked my left eye. I had given up all hope of ever being cured, since Dr. Ely said he could only give relief; but that a cure was impossible. In March 1858, I bought a bottle of "Blood Searcher," but I must confess that I had no faith in it. I was very weak when I commenced taking it; but I found that I gained strength day by day, and also that the ulcers commenced drying up. I continued, and when the third bottle was taken my face was healed as if by a miracle. I used a fourth bottle, and I have been healthier since than I have been for the last seven years. Although my face is sadly disfigured, I am still grateful to a benign Providence who has spared my life, and which has been done through the instrumentality of LINDSEY'S BLOOD SEARCHER.

DAVID McCREARY.

THE LIVER INVIGORATOR!

PREPARED BY DR. SANFORD,

Compounded entirely from GUMS,

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public, that acts as a *Cathartic,* easier, milder, and more effectual than any other medicine known. It is not only a *Cathartic,* but a *Liver* remedy, acting first on the *Liver* to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most *Cathartics.* It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

The Liver is one of the principal regulators of the human body; and when it performs its functions well, the powers of the system are fully developed. The *stomach* is almost entirely dependent on the healthy action of the *Liver* for the proper performance of its functions; when the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the Liver—having ceased to do its duty. For the diseases of that organ, one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with Liver Complaint, in any of its forms, has but to try a bottle, and conviction is certain.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious attacks are cured, and what is better, prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents nightmare.

Only one dose taken at night, loosens the bowels gently, and cures Costiveness.

One dose taken after each meal will cure dyspepsia.

☞One dose of two tea spoonsful will relieve Sick Headache.

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure.

Only one dose immediately relieves Cholic, while one dose often repeated is a sure cure for Cholera Morbus, and a preventive of Cholera.

☞Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

☞One bottle taken for Jaundice removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite, and makes food digest well.

One dose often repeated cures Chronic Diarrhoea in its worst forms, while Summer and bowel complaints yield almost to the first dose.

One or two doses cures attacks caused by Worms in Children; there is no surer, safer, or speedier remedy in the world, as it *never fails.*

☞A few bottles cures Dropsy, by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Bilious Type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

☞Mix Water in the mouth with the Invigorator, and swallow both together.

SANFORD'S LIVER INVIGORATOR.

The Liver Invigorator

IS A SCIENTIFIC MEDICAL DISCOVERY, and is daily working cures, almost too great to believe. It cures as if by magic, *even the first dose giving benefit,* and seldom more than one bottle is required to cure any kind of Liver Complaint, from the worst *Jaundice* or *Dyspepsia* to a common *Headache,* all of which are the result of a Diseased Liver.

PRICE ONE DOLLAR PER BOTTLE.

PROF. O. J. WOOD—Dear Sir: Some time last summer we were induced to use some of your Hair Restorative, and its effects were so wonderful, we feel it our duty to you and the afflicted, to report it.

Our little son's head for some time had been perfectly covered with sores, and some called it scald head. The hair almost entirely came off in consequence, when a friend, seeing his sufferings, advised us to use your Restorative; we did so with little hope of success, but to our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out; and we can now say that our boy has as healthy a scalp, and as luxuriant a crop of hair as any other child. We can therefore and do hereby recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair. We are yours respectfully,

GEORGE W. HIGGINBOTHAM.

SARAH A. HIGGINBOTHAM.

PROF. O. J. WOOD—Dear Sir: I have used two bottles of Prof. Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the Hair. Before using it I was a man of seventy. My Hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind. Yours Respectfully,

DANIEL N. MURPHY.

GREAT IMPROVEMENT IN

COOKING STOVES.

Consumption of Smoke and Gas, and Saving of Fuel.

THE subscriber would respectfully inform the public that he has added to his former variety of Stoves, a new *Patented Gas burning* COOKING STOVE.—It is well known that all inflammable matter requires a certain amount of air to support combustion, and if the supply is insufficient, it is impossible to produce a flame.—The heat of the fire, in ordinary cooking stoves, decomposes the fuel, and as all the fresh air is admitted under the grate, its oxygen is exhausted before it has passed through the fire chamber. The close flues at the top of the stove then act as an extinguisher, tending to put out the fire, instead of assisting the combustion. A large portion of the fuel, therefore, passes off in the shape of smoke, clogging up the flues of the stove so as to impede the draft and interfere with the baking,—or of the invisible gas which combines with the lime and so destroys the mortar of the chimneys, loosening the bricks and exposing the dwellings to the danger of fire.

The introduction of an additional supply of cold air, would cool the gas below the igniting temperature; but by the proper application above the fire, of air previously heated to a temperature for several hundred degrees (which is one of the prominent features of the patent) the gases are inflamed in numerous jets, and their combustion is sufficient to heat the oven, even if the draft through the fire chamber is entirely closed.

In addition to the ordinary direct draft under the grate and through the fire chamber, the gas burner has an additional draft through the top plates, which is of itself sufficient to maintain combustion. The upper draft not only consumes the gases, but it helps to strengthen and preserve the centre pieces, which are most exposed to the direct action of the fire, and which are made double instead of the usual single plates.—By means of this draft only, all the operations of cooking can be carried on when the fuel is but partially ignited, and the fuel consequently burns more slowly and more economically.

A sufficient evidence of the effect of the gases in heating the oven, is found in the fact that the oven will be ready for baking, even before the fire is thoroughly kindled, and much sooner than in any other stove.

As Gas burning Stoves are the order of the day, the Gas burning Cooking Stove will not only be the leading stove at the present season, but it will undoubtedly supersede all others. Purchasers will, therefore, consult their own interests, by seeing and examining it before giving orders elsewhere. The operation is so perfect, and its advantages are so easily to be seen and understood, that it readily commands at retail, an advance of five or six dollars over the retail price of any stove of the same size.

Also on hand a variety of PARLOR COAL STOVES—cheap.

A Card from Dr. James M. Jarrett, *of the New York Lung Infirmary.*—My connection for the past eight years with the above Institution as Chief Physician, and twelve years' experience of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivalled opportunities and advantage of pathological research—aided not a little by a perfect system of *Medicated Inhalation*—has enabled me to arrive at a decisive, direct and successful course of treatment for the positive and radical cure of the diseases of the *Throat, Lungs* and *Air Passages.* By Inhalation the vapor and curative properties of medicines are directly addressed to the diseased organs and the integument. I do not advise the use of Medical Inhalation of any kind to the exclusion of *general treatment,* and although I consider it a useful adjustment in the proper management of those fearful and often fatal diseases, yet I deem it very necessary that each patient should have the benefit of both *general* and local treatment. The success of my treatment in the above diseases, and the high character of the Institution over which I have so long had the honor to preside, are too well known to need any eulogy or comment from me. At the solicitation of many private and personal friends, through whose philanthropic aid the above charity has been long and liberally supported, and after due consideration, I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all, and not confine myself as heretofore to those only who entered the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give entire satisfaction, both to my professional brethren and the public, I would respectfully announce in conclusion that *I can now be consulted personally or by letter,* in all diseases as above, and that the medicines, the same as used in the Institution, prepared to suit each individual case, *Inhaling Vapors, Medical Inhalers,* &c., &c., will be forwarded by express to any part of the United States or the Canadas. TERMS—My terms of treatment by letter are as follows, viz.: $12 per month for each patient, which will include medicine sufficient for one month's use; also, Inhaling Vapor, and an Inhaling Apparatus. Payment as follows: $6 to be paid to Express Agent on receipt of the box of Medicine, and the balance $6 at the expiration of the month, if the patient be cured or is entirely satisfied with the treatment. Patients, by giving a full history of their case, and their symptoms in full, can be treated as well by letter as by personal examination. Patients availing themselves of Dr. Jarrett's treatment may rely upon immediate relief, as he seldom has to treat a case over thirty days. Letters for advice promptly answered. For further particulars address

JAMES M. JARRETT, M. D.,

No. 820 Broadway, cor. Twelfth St., N. Y.

P. S.—Physicians and others visiting the city are respectfully invited to call at the Infirmary, where many interesting cases can be witnessed, and where one *improved apparatus* for the inhalation of medical vapor can be seen and inspected.

MANTILLAS—Cheap and fashionable, at MISS McCREARY'S.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation," indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

HOWARD ASSOCIATION,

PHILADELPHIA.

A Benevolent Institution established by special Endowment for the Relief of the Sick and Distressed, afflicted with Virulent and Epidemic Diseases.

THE HOWARD ASSOCIATION, in view of the awful destruction of human life, caused by Sexual diseases, and the deception practiced upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon, as a CHARITABLE ACT worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give Medical Advice Gratis to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty, to FURNISH MEDICINES FREE OF CHARGE. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their Annual Report upon the treatment of Sexual Diseases, for the year ending January 1st, 1858, express the highest satisfaction with the success which has attended the labors of the Consulting Surgeon in the cure of Spermatorrhoea, Seminal Weakness, Impotence, Gonorrhoea, Gleet, Syphilis, the vice of Onanism or Self-abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important and much despised cause.

An admirable Report on Spermatorrhoea, or Seminal Weakness, the vice of Onanism, Masturbation, or Self-abuse, and other diseases of the sexual organs, by the Consulting Surgeon, will be sent by mail (in a sealed envelope), FREE OF CHARGE, on receipt of two Stamps for postage. Other Reports and Tracts on the nature and treatment of sexual diseases, diet, &c., are constantly being published for gratuitous distribution, and will be sent to the afflicted. Some of the new remedies and methods of treatment discovered during the last year, are of great value.

Address Dr. George R. Calhoun, Consulting Surgeon, Howard Association, No. 2 South Ninth street, Philadelphia, Pa. By order of the Directors.
